

## Reggie's Family

By: Reggie S

This is a story about my family at home. When I get home I like to play on my brand new black Xbox 360 that has a lot of games to go with it. My brother and I like to take our big, hairy dog Max on long walks after school. We really enjoy playing with Max in our free time. I like when mom cooks in the kitchen and cooks owee gooey nachos dinner for us every night and we enjoy eating dinner as a family. I enjoy hanging out with my family and doing fun things like board games, go to the park, and play tag. Playing with my brothers and sisters is so much fun. We like playing Monopoly, operation, and peppa pig. When we go to the park we play on the slides and swings and run in the green grass. I more than anything enjoy giving up any free time to my family so we can explore and do more fun things together, but we always can't because my mom and dad work hard long hours and me and my siblings go to school. I wish we had more free time to do more things together so we can have more fun!
