

The Storm

It was a bright and sunny day in Texas and no one was ready for what was coming! Everyone thought the news was exaggerating so they paid no attention. As the day went by, the sky began to get dark and darker and the wind suddenly began to blow fiercely.

The people treated it as any other storm and went to bed the next morning. The news came on and the weatherman began to announce that the storm was worse than they thought. The storm was going to cause Texas to disappear. A team of the best emergency agencies decided to come together and plan on how to fight against this so-called HARVEY. They gathered and got ready for the upcoming days the leader who was known as Dobbie. He had powers to teleport and run at high speed so in case of an emergency he did not have to worry. The storm finally hit and it was a terrible scene! Sharks and other animals were all over the place eating and taking over the entire city. That's when Dobbie and his team and legends went into action with rockets and other technology and they began to take out the monsters that had gotten into the water. They succeeded and gained control of most of the area again but now the problem was people had no power and food. Dobbie teleported to the other side of the world and his friends flew to get what they needed. Everything was done so fast and the president decided to give them a reward for their work and bravery. He thanked them for creating such an amazing force team that would fight against storms and other disasters.
