

It is the first day at a new school for Ashley. She is in seventh grade, and it is so hard to make friends when you are trying to get to class from class. She is a very smart girl and organized. She gets up early and goes to sleep early. Today is important to her because she is going to try to make her first friend at her new school. So she got a little dressed up with her favorite shoes, shirt, jeans, and her favorite hair style. So she gets to the school and looks around and sees another girl that looks confused (just like she looks). Ashley walks over to the girl and introduces herself, "Hi I am Ashley I am new, and by the look on your face I am guessing you are too." The girl says, "Hi I am Jessica, yes I am new here but I am used to moving." "Well I guess we should find someone who knows there way around here." "Oh of course maybe that girl with the camera. Alright let's go ask her where the front office is." Together they walked

over to the girl with the camera and Ashley asks, "Excuse me where is the front office?" "Oh hi I am Emily, and I can tell where the front office is. You go straight and then take two lefts and then you are there." Then Ashley says, "Thank you so much," before they leave. After they got directions, they were making their way down the hallway, when bam they ran into these three girls that thought they were so popular, and they were, because of their parents. Their parents were famous at acting, but that does not give these girls the right to give people a hard time. When they bumped into each other they both fell, but the leader of the group spilled water on herself, and then she yelled at Ashley and Jessica like this, "Why would you do that?" said Kalie (the leader of the group). Ashley said, "It was not me it was you." Then Kalie says, "Are you new? You have your first enemy at this school, so watch your back." Then they try to reach the front office without getting noticed. They get

to the front office without any more water getting spilled, then they get their schedule and they are so excited because they have four classes together, but they only have those classes that are in the afternoon. Then they meet at lunch and talk about who they have in their classes. Ashley has Kalie in her class for English and Spanish, she really tries to ignore her during classes, but for some reason she keeps replaying how she became that mean girl's enemy. Then Jessica tells Ashley about her day. She said "My day was the first best day I have ever had and it is all because I did not have Kalie in my class at all." Then Ashley says, "That makes one of us" in a sad voice. Then the bell rings. "Well we better get to class," says Jessica. "Alright," said Ashley still in a sad voice. Then she remembers that they have the last four classes together so she perks up! Then they walk to class together and get through their classes. After that they go outside to get picked up, then

Ashley asks “Do you want to come over for dinner?” Jessica says, “If it is no big deal for your family.” Then Ashley replied “Of course not. They will be happy to know I made a new friend.” Then we arrive at Ashley’s house and help Ashley’s dad and mom set the table. After they set the table, they ate Ashley’s favorite food which is spaghetti. Then Jessica says, “What a coincidence, that is my favorite food too.” After they eat, Jessica says, “I should be getting home now because my parents gave me an 8 o’clock curfew.” “Maybe we can do this again tomorrow but this time you can come to my house. It should be easy because we I did not know we were next door neighbors.”

The end.
