### The girl with the unicorn

On Friday, Evie and her family left for camping to celebrate her 8<sup>th</sup> birthday. Evie had packed her clothes in her unicorn backpack and was ready to go. As she looked out the window from the car she saw beautiful trees pass her by, she wondered what kind of adventures she and her family would have. Evie took out her panda notebook and her colorful unicorn pen and she started to write down her thoughts about what her birthday weekend would be like, she wrote about long hikes with her family, bears and bunnies. They finally arrived and signed into the camping center. Evie and her family took hotdogs and s'mores to make for the night. After they had their meal they played some games, and sang karaoke. They found a river where they could stick their feet into. Fishes were flowing around them. By the end of the day Evie and her family were tired, they finished setting up the tents and headed to sleep. Later that night, Evie woke up she had heard some weird noise in the woods, she got up very quietly and started wandering into the woods, she saw a glowing horn so she followed the light into the middle of the forest. As she followed the light into the middle of the forest the glowing horn got brighter and brighter. Evie could not believe what she saw she almost fainted. Evie was so shocked as she saw the unicorn. Her hands started shaking because the unicorn got up on its back 2 legs she feared the unicorn was going to attack her. She was brave so she put her hand on its nose. The unicorn got delighted, it felt safe. Evie spent all night talking with the unicorn, she went back to the tent and grabbed some marshmallows for the starving unicorn. The next day Evie ran back to the tent just in time before her family woke up. Later during dinner she told her parents what she saw. Her parents laughed and they didn't believe her. After dinner she brought the subject back up and asked her parents to go back to the woods so they can see it for themselves and there Evie can prove she is not lying. Her mom and dad said fine and said they would go tomorrow evening. An hour before Evie went to sleep she couldn't wait to go back so she packed ahead of time. The next night, Evie woke up her parents and they started walking to see what all of Evie's fuss was about. The parents saw the light. Evie's parents were just shocked. Her mother started walking towards

the unicorn. The unicorn got frightened. But the mother tried to keep it calm. There at that moment they realized the unicorn had powers. She could fly, she could transfer her thoughts into your head that's how they found out what kind of magic the unicorn had. Time flew by they had spent their time talking and the unicorn took them on a trip over the woods. There they saw other campers and hikers. They saw the river where Evie and her family stuck their feet in. The unicorn flew down and they hit the water it was ice cold so the unicorn flew up. Ever since then Evie went back to see the unicorn they had so much fun together.
