### The Writing Princess !

Once there was a princess named Jessica and she loved to write. She had to be careful or a witch named Zel will curse her family with a disappearing spell. Princess Jessica also has a dog named Mia that can talk. Princess Jessica has a writing power and she can write super fast. She can write 10000 words in one minute. Her weakness is that she writes so fast she could misspell words. Princess Jessica is scared of witch Zel. The witch said to Princess Jessica she will curse her family with a disappearing spell. If Princess Jessica misspells a word Zel will come and curse her family. One day Princess Jessica was writing about a girl who is really good at soccer when she was she accidentally spelled girl wrong. Then the witch came and put the spell on her family. Before the witch went to put the spell on Jessicas family she said "if you want your family back come to my castle" Jessica decided to go on the journey. On the way to the castle it was a hard trip. Finally Jessica got to the castle the door creaked open and the witch was waiting by the door for her. Then the witch spoke "if you give me your writing power I will give you your family". The Princess said "deal". So she exchanged her powers for her family. After that day the witch never messed with the princess again.
