

## The Basement

Once there was a little girl so sweet, so smart so so so smart, and so young her name is, Libby she is 6 years old though she's young she's got a mind like no other she can do decimals, algebra, and lots lots more. But after this day she didn't think she couldnt do enanything heres what happened to Libby. Libby's mom and dad had a date night so mom called the babysitter her name was Vicky she was the meanest babysitter ever. Vicky always does something mean last time she locked Libby in a cage for 3 hours! This time Vicky locked her in the basement. Libby decides to look and find a light she found the light and it was brocken. Luckily she had a flashlight handy. Libby found a coffin so she opened the coffin because she wanted to see if there was enay artefacts when Libby opened the coffin she found a...vampire! "ahh" Libby said worried. She ran and ran but then she found the extra supply of food, Libby got the garlic she knew vampires didn't like garlic because Libby read a nonfiction book about vampires. Libby really hoped it will work. "yay it worked" Libby said cheerfully. Now Libby is more carefull about where she looks because there might be more monsters. She ran back to the door an see if Vicky unlocked it, Vicky didn't unlocked it. Before Libby had a chace to leave the door big foot came and lifted Libby luckily Libby had a veggie because big foot hates veggies Libby said "I will feed you the veggie if you don't let me down and go away."

Then Libby found her last dog's cage so she went to see it. Libby saw a dog and thought there's a poor hungry dog but...it was not a poor dog it was a warewolf! "ahh" Libby said frightend. She ran and ran but Libby wasn't fast enough, the warewolf jumped on Libby but, Libby got a stick and through it in the cage and said "go get it boy" and the warewolf ran to the cage and sat down to chew on the stick.Libby ran to the cage and locked the cage door. Libby

walked around so scared she jumped when she heard any little sound. But then she heard circus music and a little car driving toward her. She thought when the werewolf was running the werewolf stepped on the on button. She looked a little closer at the small car but there was no on button. She held her breath and she was so scared she could not move so when the door opened Libby was frightened frozen. Then a head popped out with white makeup and rosy red cheeks and a flower hat then the whole body came out it was a...creepy clown! "ahh I'm scared of clowns" Libby screamed. Libby was running as fast as her legs can take her away from the clown. The clown went back in the tiny car and chased Libby. Libby was one step out of the window. The clown jumped out of the car and grabbed Libby's leg and pulled her out of the window and back in the basement. Libby kicked the clown and pushed him backwards and ran out the window then a ghost pushed her back in the basement. Libby just realized ghosts can't push you so Libby jumped out the window and ran to the restaurant where her mom and dad are. Libby said "mom dad there's monsters in the basement, Vicky locked me in the basement." The mom said "calm down Libby. The dad said "I'll call the police. The mom, dad and Libby went home. Vicky had to go to jail and Libby, mom, and dad are living in an apartment now.

The End
