

The Great Pirate Mischief

Aliza R.

Once upon a time a girl named Emma was born. When Emma got to 3rd grade she started to get interested in stars and constellations. By 4th grade her favorite subject was science. When Emma was in 5th grade the meteor shower was coming up, but the problem was in order to see the meteor shower Emma would have sail to the island of stars. Emma asked her big sister Olivia if she wanted to go she thought about it and said “yes”. Emma and Olivia asked their mom named Mrs. Mia, but she said “no”. After a while Mrs. Mia thought about how much Emma would hate to miss the meteor shower, so Mrs. Mia decided to come along. Emma and Olivia were so happy to hear that they could see the meteor shower. Emma, Olivia, and Mrs. Mia got on a sailing boat. They sailed through the sea, until they saw sailors on a ship. They were stuck on a reef. Mrs. Mia reminded Emma and Olivia the 1st rule of sailing. Emma and Olivia said at the same time “to always help a ship in need”. Mrs. Mia asked if they needed a pull? The sailors thought Mrs. Mia said they needed a pool. The sailors said “I don’t need a pool there is plenty of water in the ocean for me to swim in”. Emma explained “what my mom means to say is do you want us to pull your ship off the reef”? The sailors were happy that someone had finally a useful idea. Emma and her crew pulled the sailors off the reef. But then suddenly, a giant hole emerged from the bottom of the ship! Emma, Olivia, and Mrs. Mia were sinking! Mrs. Mia said “we must abandon ship”. The crew of sailors said “come aboard”. Emma and the crew had no choice, so they came aboard the ship. The crew of sailors looked clumsy, thought Emma. When the sailors heard Emma they said “1st off we are not clumsy and 2nd off we are no sailors were pirates” “argh”! The pirates called the captain. The captain told Emma and her crew his name was Captain Clumsy. Emma and her crew introduced themselves. Mrs. Mia asked Captain Clumsy if he could take them to the island of stars. Captain Clumsy said “definitely not”. He explained “once you are on my ship you are now a part of my crew. Mrs. Mia asked what do we have to do on this crew. Captain Clumsy said “you have to help me find the golden star”. One of the pirates brought the map that lead to the golden star. Mrs. Mia asked “if we help you find the golden star will you take us to the island of stars”? Captain Clumsy thought about it and said “alright we have a deal”. There were 3 clues. The first clue was “I am very cold, and I will make you shiver. Emma said a “freezer”, Olivia said a “penguin”, and Mrs. Mia said an ice cube. Emma and her crew decided that an ice cube makes sense. At the same time Emma, Olivia, and Mrs. Mia said at the same time “icy mountains”. The ship headed towards the icy mountains. The 2nd clue was “I am dangerous and can eat you”. Emma said “dinosaurs”, Mrs. Mia said T-rex, Olivia said shark. Emma and her crew discussed that a shark makes more sense. The crew said at the same time Sothern Shark Sea. So they headed toward Sothern Shark Sea. The 3rd clue was something white that shines in the water. Olivia said “a diamond”, Mrs. Mia said “a star”, Emma said “the moon”. Emma and the crew discussed about it, and thought the moon makes more sense. So they sailed to the moon, and looked down at the sea and saw the golden star appearing. Captain Clumsy attached the golden star to the front of the ship. Mrs. Mia said “remember the deal”? The captain said “oh yes” He asked the golden star to guide him to the island of stars. Finally they got there. The meteor shower

began. Emma caught a meteorite. Emma was so happy. She added it to her rock collection. The pirates had some wood they told Emma and the crew that they made a boat for them. They said "thank you" and sailed back home.

The End
