

## The Curse of the Jack O'Lantern

By :Muhammad F.

One spooky night a jack o'lantern appeared in the middle of the haunted cemetery. And then a man saw a pumpkin lit up in black and orange light, so he decided to go towards it. As soon as he got to the pumpkin he said "how wonderful a free jack o'lantern for Halloween."

So he picked up the jack o'lantern and started to walk back home. He walked 10 second back from the middle of the cemetery and an hand came out of nowhere from the ground with red gloves on. But the old man didn't know, so he didn't worry. And then the hand pulled the man into the ground. After 3 hours the man's wife was worried ,so she decided to call the cops. The cops searched for the man for about 3 days, but they couldn't find the man .From there on the man disappeared out of nowhere. But hold up ,the story is not over yet it kept on happening again and again.
