

The Twister

By: Kyara G.

It was any day like no other just playing with my sister, and my mom and dad were watching tv shows. My sister and I decided to watch tv. So we did. I turned the tv on to the news. For now it was calm, but then all of a sudden the news station said that there's a tornado warning! So my sister and I panicked, but then we stopped to listen. Then the news said that the tornado was coming to bexar county! Then my sister and I rushed to our mom and dad and told them in a panicked voice that there was a tornado coming! So we packed up our things in the car and drove off.

When we were driving I felt a sudden change in the wind AAH!“The tornado is forming!” We rushed the car to the highway and we drove away. Once we were out of San Antonio we were driving to the country.

Once my family and I were in the country we stayed at the nearest town, but when we arrived at the town it was deserted. So we looked around and found no one. So we found a place to stay. Then we saw a thunderstorm coming. So I scurried outside with my mom to check the car if we left the windows open, but I felt an increase in the wind.” I thought the tornado had passed”?I told mom. Then I saw the clouds forming into a funnel shape. So we got into the car and abandoned the deserted town.

When we were driving away I looked at the back of the car and saw the tornado was chasing us! So we went as fast as we can, but it was catching up to us. So we drove into the woods to escape the tornado.

The Twister

Once we were out of the woods. We saw sky blue lakes beside us, but then the sisters came out. So we tried to back up, but the other tornado caught up and went to the back of us. So nowhere to go we panicked. Once the sisters and the other tornado got us we thought it was the "End of the World"! for us, but then it passed. Sighing of relief we went on.

When we got out of the tornado we stopped at a nearby town. It actually had people so we stayed for a while. But then another tornado appeared, so we hid in a basement. When the tornado hit it almost destroyed everything! Then we saw that the tornado went away. So we checked my mom's car it was fine. So we were going back to San Antonio.

We went back home to San Antonio, and saw the destruction that the tornado made. Closed roads, homes were destroyed. When we were at home we saw that it was not damage! So we unpacked and was relieved to be back home. Then we felt bad about the other people, so we came to help them fix things.
