

Brogan G. and Max G.

## The Money Tree

Hi my name is Alex and a few days ago I bought a seed from my friend Kevin, he said it would grow money on it. I didn't believe it but I wanted to prove myself wrong. Guess what, he was right I put it in a pot and water it for two days after that I woke up and there two one dollar bills on it! I started getting ready for school and I was about to tell my sister, Chloe about the money tree but I stopped myself because I didn't want her to tell her friends. So when I was on the bus I told Kevin he was right. He said he knew that it would grow because he planted one too.

When I got to school I started to think about what should I do with the money when the money tree grow bigger. I was like maybe I could get extra cheese on the pizza at lunch or buy the game Alien Galdator two when it comes out in a month. Or do both. But I have to be wise because if I spend too much at one time people will get suspicious. Get out your mathbook and turn to page 356. That's my first period teacher Miss. Morgan. People say she is the meanest teacher in the school and Kevin and I got her but every other teacher I got is chill. When I got home I went to see the money tree and my sister was watering it! I said what are you doing? She said she was watering it and liked my creation. She probably thought I taped money on a plant. And then she left the room.

### Chapter 2

The next day I had my money and right before I was going to close my locker Bradston, the school bully, showed up and said, whered you get all that money dork? Doing chores for mommy he said. I tried walking away and avoid him be he would follow me after every class.

When I got home I started to think, hopefully Bradston didn't come to the door and ask if he can play with me because he sometimes comes to ask if he can play with random kids at school but he doesn't actually play but he just annoyyoys you till he goes home. I said mom what's for dinner a few minutes after thinking but here was no answer. I said mom...there was no answer again. I started to call her on the phone. She told me she was at work and that's when I rembered she told me, she was going to work. She told me she forgot to go shopping and I was going to have to make my own dinner. I got worried for a second but then I remembered the money tree. I can just go to CVS and get a hotdog. And when I got home I walked in my room and my sister and her friends were in my room and said, we know about the tree. I started paincing begging them to not tell anyone. But they said they would tell people. And they went home. I was like, what just happened?! Next day at school everyone was asking if they could come to my house. I guess it spread to my school. When I got home I guess people hopped the fence And Kevin was in my room. And he said, people were trying to get inside but I got inside and lock the eindow, but one kid got inside too and is somewhere in the house. While me and Kevin looked for the other kid I guess he snuck into my room and unlocked my window and kids started coming in. I said they're in the house. I told him my plan only way to get them out is to burn the money tree. He said, are you crazy?! Maybe I said, but if we burn it they will go away because the only thing they want is the money tree. Then he said, fine. So I got the lighter went to my room and I burned it. Kevin said look on the bright side you still have a cuple hundred dollars. And I said Yes!

The End
