## My First Day Of Pre-K

In my first day of Pre-K I remember my mom telling me not to be shy or nervous.  
I was shy by not really talking but I wasn't nervous.

We got to my school and it is really quiet just like a mouse sleeping I see kids sitting in a row one behind a girl named Karyme.  
We instantly became friends.

My teacher was Mrs.Owadi I was on her afternoon class which was on her afternoon class which was from 12:00pm to 3:pm.

My day went fast, it felt as fast as a blink since it was only 3 hours.  
Me and Karyme told our moms we had a Best Friend, my mom was like "IT has been 3 hours and y'all are bff already".

Me and Karyme are really good friends,we have been best friends since that day,so we been friends for 7 years

We have never gotten mad at each other and we always help out each other.  
She is like the sister i never had.  
I learned that I can make friends with just talking and not letting shyness stop me.
