

Bella P.

My cat named Mitten likes to get on my laptop. When I go to work and likes to google how to get more cattreats. How to sneak into my room at night , how to get attention, how to get rid of the dog. Mitten if you are reading this stop getting on my laptop and wasting the battery and not charging it. It is getting very annoying when my laptop is dead and I need too work on my laptop for work. Stop using my laptop for your blog.

If you want to follow mitten her blog is @mittenthecat (this is not real)

Sincerely your owner Bella
