The Wish!

In 1840 there was a little girl who was five years old. It was 4 more days until it was her birthday, but her parents were poor. But the mom had saved enough money for a cake. She is going to get a chocolate covered strawberries and white cake with strawberry filling. Now it's her birthday her mom got her cake. She was officially 6 years old. So then they lighted up the candles then the little girl wished that her family and her well go to a house that was made out of candy. That night her and her family went to bed. The next day she woke up in a house made out of candy and a pudel made out of chocolate. Then she woke up her family. She couldn't believe what happened neither could her family. All they had for breakfast, lunch, and dinner was candy. They had candy beds, candy rocking chairs, candy everything! Everyone said, "This is a dream come true!"

The End
