I Love My Garden

One day I saw my garden and it did not have any flowers. So my mom said to me "We need to go to the store." "Yes let's go" I agreed. "So we can buy seeds for the garden."

We went to H-E-B garden center and bought a lot of different seeds. When we got home I went straight out to my garden. I dug as many holes as I could and started dropping seeds into them. I covered them with dirt and watered them all gently.

After a few days the tiny green shoots began to appear and after a few weeks I had a beautiful new garden full of beautiful flowers. They were so pretty and colorful. It was like a rainbow in the sky so, so pretty.

That's how I grew the perfect flowers in my perfect garden. I love it!
