

# What to Do with an Older Teenage Sister: A Guide for Kids

By Eva Grace B.

*I live with a mom, a dad, and two sisters, one teenager and a little sister. Today I'm going to help you survive a teenage sister. I will not let you down because I know what you are going through. So let's begin, we'll start with the basics.*

- 1. Try your best to give them privacy. Otherwise, you will hurt all over and I'm not talking about your feelings.*
- 2. Don't try to pester or start drama with them.*
- 3. They are always wrong so don't trust them.*

4. Stay close to your momma or daddy!
5. If they are calm, **DON'T** think they won't attack you. **WARNING:** appearance can be deceiving!
6. They complain and argue like they're on a debate team. So pretend like you have earplugs in. Don't ignore your momma or daddy though! If they start yelling, listen to them.

We know the basics so let me tell you the things that will happen the most often. This is going to be a long list.

1. *They will try to fight back.*
2. *They will try to get out of things.*
3. *They'll try getting you into trouble.*
4. *They will be bossy. (**WARNING:** ask Momma if it's safe.)*
5. *They will roll eyes. (all the time.)*
6. *They will give you dirty looks.*
7. *They will lie. (Ask Mom if she really said that.)*
8. *They won't get distracted about something you did. (Believe me, I know.)*
9. *They will be noisy.*

10. *If they are mad, RUN! Warning... Run really fast!*

11. *They do not like anything you do unless it's stuff they like. WARNING: DO STUFF THEY LIKE! Unless it involves hurting.*

12. *If they want to help with anything, say ABSOLUTELY! Unless they have a bad history with helping not tearing up the thing they ask to help with.*

13. *They chase you (not playfully).*

14. *They will be rude.....a lot!*

15. They will yell and scream and fight and hit  
among a lot of other things.

16. They steal.

17. Most of them will hurt you if you don't give  
them what they want!

Let me give some examples of these things.

1. If your sister is in the middle of an argument with  
your mom, (Trust me; it will happen.) don't interrupt just  
walk away. **WARNING:** no smiling.

2. *If your sister is fighting someone, tell your mom not to get in the middle of it. Otherwise you get hit or scratched or even broken!*

3. *You love your sister, I know that, but if she ask you to lie so she won't get into any trouble.....DON'T!*

4. *So as you can see there are lots of things you can do to not get into trouble because your mom will find out you lied or didn't tell her.*

*Most of the time your mom will say that your sister will grow out of whatever she is going through, but don't have a lot of faith that it will stop soon. **WARNING:** believing is*

*seeing!!!!*

*No matter what the sister does, don't use it against her.*

*If it was an accident, it makes them feel even worse than they already do. Believe them if they say sorry.*

*Otherwise, your life will be miserable. Sisters like to annoy you, so do whatever you can to ignore them. Put invisible earplugs in if you need to. Just don't get so annoyed you start hitting or punching. Then you turn black and blue. Just ask yourself. Is that really worth it?*
