

Once upon a time there lived a mermaid named Bella. Bella wanted to be a fairy. But mermaids can't just magically...she did not want to finish because that's when it hit her. The big idea. Her big idea was for a mermaid wizard to turn her into a water fairy. And luckily she knew a mermaid wizard. So before she went to the mermaid wizard she had to tell her mom her big idea and she knew that was not going to be easy.

So she started to head for mom's room. When she got there she was panicking more than ever. She slowly went to her mom who was on her bed. Mom, Bella said, I have an idea. Well what is it said Bella's mom. I have an idea for my dream to come true. I'm going to have my wizard friend change me into a water fairy. Bella's mom's response was are you crazy. Bella knew it was going to be hard to get her mom to like her idea as much as she did. So Bella did the only thing she could she fought back. But don't you think I can take care of myself. I mean how hard can it be. All you have to do is make sure you have a job that gives you money that can afford food, clothes, and shelter. By then she got her mom in. So her mom said ok. And Bella said oh don't sass me. Wait what did you say. Her mom said it again ok. That time she heard her mom. She quickly hugged her mom. Saying thank you thank you thank you. She quickly swam away from her mom. And swam to the door swam out before she went farther she swam very fast back to her mom and gave her one more hug. Then she swam away. And headed for the wizard's house.

When she got there she knocked on the door three times. Knock, knock, knock. Then the wizard opened the door like he was waiting on someone. He invited Bella in. and asked why she was here. I am here because I need you to turn me into a fairy. A fairy he said. Why a fairy. Because it's been my dream to be one ever since I knew they were real. And the next thing that crazy wizard said was ok that's all I found the right spell book found the spell and waved his hands but the spell only works when the wizard says it in his mind. So that's what he did he said no tail replace it with wings. And at that instant she got shot out of the water and into the sky. She was out of the water and she found herself a nice house a good job and good food.

And she lived happily ever after!
