One rainy night the police station got a missing persons report for a young boy, around five years old. Officer Liam and his two partners, John and Ava, were ordered to respond to the call. The last known location of the little boy, Kason, is Wall Street. So the officers went down to Wall Street to look for clues to the boys whereabouts, "Kason must of just ran away. Since no clues turned up we should go interrogate the mother, to find out how he acts at home and if he had any reasons to run away." said Officer Liam. While interrogating the mother, Vivian Johnson, she seems frantic and mysterious. Then when they asked about the father, Kolton, she shut everything down, "I need to go to bed. I have to go to work extra early tomorrow morning.", said Vivian. So the cops packed up their things and left.

When they got back to the station they reported what they had found and decided to look farther into Kason's father. As they looked at Kason's dad's police history, they found a restraining against Kolton order filled by Vivian for her and Kason. Then they looked into his criminal record and found that he had murdered his first husband, Ella, by suffocating and stabbing him to death. After they looked into Kolton's criminal record they saw his last known location was on Broadway. Officer Liam, John, and Ava went to Broadway and while they were strolling down the street they found a business card addressed as The Johnson's Company. They decided to walk further down the street and they found boys Nike Sneakers hanging out of a garbage can, and when they went to investigate it they found a body lying further into the dumpster." Quick Liam pull out the picture of Kason." said Officer John and Ava at the same time.

After they found the body they identified it as Kason's and they called for backup and they brought his body to the morgue. When they get the autopsy report back they found that Kason was killed the same way Ella was, so there first suspect was Kolton. Then they went back to Broadway and looked for any finger print signs and blood trails. The next morning the chief Emma was looking for them but they were missing. Since nobody had seen them she went to the crime scene herself, afterwards Emma went to interrogate the mother. While interrogating the mother when Emma asked her about the missing officers Vivian shut everything down again saying, "I need to go to bed. I have to go to work extra early tomorrow morning ". The next morning Emma goes to Broadway and finds the missing officers Murdered.

They get a search warrant to Vivian's house and find knives in the kitchen that have the same markings and the ones used for and 4 murders. They spray luminol all over the house and they find blood traces leading to the bathroom and in the sink were traces of blood. After they found the blood they took the leftover DNA samples and found out that they were connected to the 4 murdered victims. They arrested her and put on 4, 1st degree murder charges and were sentenced to 4 life sentences in prison without parole. Its court day and Judge Scarlet is very gentle because Vivian was her friend. "Vivian Johnson do you agree that you have committed this crime? 4, 1st degree murder charges and being sentenced to 4 life sentences in prison without parole." said Judge Scarlet. "I committed-"said Vivian before she was interrupted. Kolton runs into the court room and yells "SHES NOT GUILTY, I AM."
