Universal Adventure

By Jose M.

It was a hot day. We were in the store, buying clothes and shoes. I told my mom, “Why od you need so many clothes?”

My mom said, “We are going to see King Kong.”

I was thinking, where were we going? Was it to watch a movie in 3D? Were we going to buy a toy? Or were we going to the zoo?

My mom said, “Your dad didn’t tell you?”

I said, “No.”

“It’s a surprise, okay.”

I was thinking and thinking and then I watched a video of a ride, but a King Kong. But in that video I saw King Kong fighting dinosaurs and buses full of people dragging them from one place to another. I didn’t want to go but I told myself if we go there I’m going to be brave.

When we got there, it was cool, and then a 10 year old boy started crying and coming out of the King Kong ride, but when we got inside there were more rides in it like Fast & Furious, Jaws, and other movies. But in the last one was the King Kong. It was cool. We saw the Minions. I liked it and Jurassic World too. They asked questions about the dinosaurs. I loved it and more rides. That was my favorite trip of all time.
