

Catching a Fastball

by Toby V

Timmy is a little boy that's 10 years old. The dream that Timmy has is to join a kickball team, but there's one big problem. Timmy was scared of fast moving balls. When Timmy was younger, Timmy was struck by a fast moving ball.

Timmy snapped out of the nightmare when his friend Jimmy asked him to join him for lunch. AS they were having lunch, Timmy told Jimmy his nightmare. After Timmy told, Jimmy wanted to help him with that, so they practiced for the whole week, and his nightmare went away.

After Timmy signed up, they had to be tested to join the team. When it was Timmy's turn, his fast speed and strong kick made him a step away from his goal, but his last test was to catch a fast moving ball. Timmy got three tries. He missed the first and second, and his last one he tried his best and he made it!!

Timmy and Jimmy celebrated by having a piece of cake for beating his nightmare and making it on the team.
