

# Hamsters

By Liam D.

## About Hamsters

Hamsters are good pets, but here's some simple steps to make it stay forever!  
(They also need a cage. We'll talk more about it in this book!)

## Entertaining Hamsters

To keep a hamster happy is to give it toys and chew toys! Hamsters LOVE chew toys. It needs to chew to make them happy!

## Food for Hamsters

Hamsters will eat anything, but they love this the most! They like a mix of nuts, fruits, and vegetables! Or just give them hamster food at a store if you're lazy. 😊

## Exercise for Hamsters

Hamsters need a lot of energy. To help with that, give them a hamster wheel and that's done!

## Hydration

Every animal needs water. But after hamsters exercise on the wheel...they need water!!! But that's an easy to fix when you have this awesome book! On the cage, attach a water dispenser. The hamster can drink all day! (Make sure to refill and clean it.)

## Safety for Hamsters

Keep hamsters away from dogs or cats. Keep away from babies. Hamsters must stay in the cage. Take it to the vet every few months. Clean its water and cage. Replace the bedding every 1 week.

IF YOU DO THIS, YOU'RE READY!!!
