

## Inside Refugee Camp

By Hodan Y.

February 23, 2016

My name is Hodan Ali Yakub. Me and my family we came from Africa specially in Somalia. When I was born, it was 2008. We fled from our country because of brutal war throughout the neighboring country in Ethiopia. At that time, we left and run away from everything we had. During our journey we have experienced so many problems without water, without food. More than that, me and my family see scary gunmen were everywhere. Our journey it was about two days until we crossed the border and we entered inside our neighboring country in Ethiopia. After, we have been living in a small town near the border known as the town Laffeisse, for four months, waiting for the Unher Registration. After that, we became Refugee recognized by the Unher.
