

Ben the Superhero Saves the Day
By Dakery T.

Ben the Superhero can read minds, fly, and hear things from far away. One day while Ben was walking to school, he heard a loud scream and went to help the person that screamed. He found the person that was in trouble and saw a huge robot. Then he tried to destroy the robot, but he got stuck to the ground by the robot's goo. The robot's goo was made out of Gorilla Glue, Super Glue, and slime. He used his super strength to get out of the robot's goo. A couple hours later when he found the robot, he punched and kicked him and the robot blew up. Ben the Superhero saved the day!
