There sits the old, broken down home in the middle of nowhere. The door is cracked open so I squeeze through the crack. When I am in the home I see two people yelling, then there is the baby sitting there. The baby is crying. the

Where did he go I say to myself?i think like a dog when I see dogprints leading up to a home. So I knock on the frount door. A man that looks like he is 5 foot 9 inches opens the door. I told him that my dog, nano, ran away and that I saw dogprints leading here. The man seemed sad when he invited me in.then he went to the backdoor and called nano in. about 4-5 seconds later a dog appered at the door. Then nano ran towards me and almost licked my face off. The man asked if he was mine. And I respounded yes with a chuckle. About 5 minutes later a woman appered carring a baby. We starred at each other for 30 seconds. Then I ran home bercause she looked exactly like mom.

Chapter 4

Told in garys point of view

I ran home with nano and told mom what happened. She said that she had a twin sister. How could this be. How could mom not tell me about this? I need to find answers and I need them now. So I went up stairs to mom's bedroom and knocked on the door. She answered the door sadly. So I did what any son would do and I asked her what was the matter. She said that when she was a little kid her mom died and her father was abusive to her and her sister. So they were put in an adoption center. Her sister got adopted but she got adopted 2 weeks later by a different family. So I asked mom if she wanted to go say hi to them and catch up with them then I told her that she was an ant. So we did we went over there and talked with them. Since they weren't living in a very nice home mom asked them if they wanted to live with us because I could babysit their child and they could get back on their feet.
