One morning, my family and I decided to go on the cruise, so we packed our clothes. The day before, but we planned a month ago and now we are finally going. Jayden and I were so excited. We packed everything we needed but we were going to be there for a week so we got a lot of stuff. It took a long time to pack. We stayed up until 1:00 in the morning and we stayed up until 1:00 in the morning and we started at 6:00 in the afternoon. We were so exhausted but we still did it.

The next day we woke up really early in the morning so we can get there early. It took a long time to finally get on the boat first they took our luggage and put in our room. When we got on the boat we went to the elevator we pressed number #6 and it took us to leve #6 we walkto our room it was number #4. It had one bed for my parents and a bunkbed for my brother and I. We settled in, and then we walked around the boat and took pictures and not a small amount but a big amount. We took lots of pictures. It was boring but not boring it was okay, like in between. Then we went to our cabin to rest. Then we went out to eat lunch. We got a chicken burger and some fries with a drink.

Then we went to our cabin. We got our bathing suits to go swimming on the boat. My brother and I went to the hot tub then we went to the salt water pool. Then we went this humongous waterslide it went so fast it scared me. Then we went back to our cabin and changed and went to sign up for the daycare, then we went inside of the the daycare, we did a lot of activities while my mom and dad went and did there fun. Then after 2 hours my mom and dad of activities while my mom and dad went and did their fun. Then after 2 hours my mom and dad came to pick Jayden and I up from the daycare and they had us

put our name on the name tag for the next time we come to the daycare. They also gave us a free backpack and a pillow it was shaped like an owl.

After that we went to this indoor restaurant on the boat it was AMAAAAZING!!!! It had a downstairs and an upstairs. They had kids menu and it had all kinds of activities on it, the waiter even made my brother and I a paper duck. It could even flap their wings.

The waiter took our order 1<sup>st</sup> they took our appetizer and we got a cheese roll. Then after (10 min) the waiter came back and took our order for the main course. My dad got a salmon and my mom ate what my dad ate. My brother and I got something from the kids menu. Our food was finally here we were so hungry our stomachs were growling but laughed before we were about to leave to go to a faster restaurant when our food finally came to our seat, the waiter yelled WAIT! So we came back, we ate a peaceful meal then some music came on. It was the song September. We danced to the music and it was fun and awesome! When we were done we went to our cabin. We made a Youtube channel.

The next morning we woke up so exhausted because we went to bed so late the night before so we slept in a little bit but not too long so we can brush our teeth and take a shower so that we can be the first ones to eat breakfast so won't be so crowded in a small area. When we finished breakfast we went to the candy shop I got Twizzlers and brother got Lindor chocolate, which I love. My mom said I eat that so much so I had to get something else which Twizzlers are my 2<sup>nd</sup> favorite candy. So I had to choose Twizzlers.

When we were done we went to the beach because the people that on boat fun time out of the boat. The beach was called Mr. Sanchos. It was in Cozumel. I saw some people that were a part of my religion. I forgot their names but we have their name but we have their number so it is okay they will remind me and my mom and my dad and my brother anyway we meet at breakfast and they said that they would be there at the beach so we were excited to see them. We finally got to get out of the boat and go to Mr. Sanchos it was awesome. We splashed in the

water with my friends and we even played tag. We raced to see who would win but it was a tie. When we were in the water my friend and I were starting to get itchy in the water so we got out of the water to play with the sand. My friend and I made a sand castle with our sand bucket then we picked up some shells and decorated it. Some were big and some were small, the best one was the wavy ones. It was so relaxing when you rub your hands on it. We rub our hands on the wavy shells, we finally stopped and put it on the sand castle. We were just about finished when our parents called us to eat lunch. My friend and I ate a burger my brother ate mac and cheese with sausage and corn.

My friend and I finished our sand castle and took a step back and looked at our sand castle. It looked amazing but there was sand all over my friends face so we had to go to the ocean to wash it off we dry our face with an extra towel. Then we decided to go into the water again but then my friend and I went too far so my started to drown so my friend and I had saved him from drowning he was crying so hard when we brought to my mom. My friend and I stayed on the shallow side we got swim around my dad and my friends dad after we were in the water for a while we got out and went back on the boat it was still afternoon so we got to the salt water pools and hot tub we stayed for about an hour se went back to our cabin to take a shower because we had saltwater and chlorine water on us.

After we were done taking a shower my mom asked my friend's mom if they wanted to eat dinner with us and the mom said we all screamed so loud. "EEEEEE!" We were so excited to see them again. We found a table and all sat down. I sat down by my friend and my brother sat down next to her brother. All the parents sat next to each other, we had a very great meal. When we were done all of the children went to the daycare after an hour we went back to our cabins and did our night routine.

The next day it was time for us to leave we packed all our stuff and left the boat and drove back to our wonderful home.
