

Spook York Adventures

One day in Spook York there were 2 explorers, Mike and Ellie. Mike was 13 years old. Ellie was only 10 years old. They loved adventures. Since they were explorers, they went to explore the local caves in Washington DC. Since Washington DC was far away from Spook York, they took teleportation by building a teleporting machine in literally 2 minutes. They got into the teleporting machine and teleported themselves to Washington DC. They went to couple of tours in Washington DC. They came back to Spook York the next week but they did not use the teleporting machine they went on a plane instead. They met this explorer which was a flight attendant.

"Nice to meet you, my name is Jessica I am a flight attendant and I am an adventurous," she said. But she never finished talking about herself. She talked through the whole flight back to Spook York. Then she sufficiently finished talking about her plus it was the exact same time when she walked away joyfully, and the plane landed in Spook York. They got off the plane, went to the carousel to pick up their luggage. They booked a taxi to go back home. Matter of fact the adventurous Jessica was on the exact same taxi, but a different route home.

They arrived home, had dinner, and went to bed. They had a very good adventure those days. The next day they got up, had breakfast, and continued their fun adventures. Mike and Ellie decided to go to California to visit Disney World. They did not take their teleporting machine or the plane. They went to California by taking their own car but the Spook York rules say, "You can drive only if you are 14 or higher." Since Mike was 13 years old, he decided to drive and try NOT to get caught to by the Spook York Police Department (SYPD).

Mike kept on driving and suddenly the SYPD was right behind Mike's car. "We are only a mile away from California" Ellie thought. Mike pulled over and followed the officer's directions. The officer asked, "Are you 14 years old or more." Mike replied back saying "No, I am not 14 years or older. I am 13 years old."

The officer paused and said "Well can you show me your Spook York State I.D." "Well yes" replied Mike. "We are only 1 mile away from our location" said Ellie. The officer said, "Okay then you are excused".

Thank you replied Ellie and Mike together. Ellie and Mike arrived at Disney World and already shown the worker at Disney World their tickets. They were allowed in after they have taken their security check. An hour later, Ellie's phone rang but her phone was left at the security check. Ellie found out that her phone was not in her purse so, she was worried and hesitated to tell Mike that she accidentally left her phone at the security check. She was crying and told Mike

sadly "I left my phone at the security check can we go back and get it." Mike said, "Sure I will be happy to get your phone you can stay here and enjoy the fun while I get your phone, Okay?" "You will really do that for me?" said Ellie "Yes." Mike replied. Something bad happened while Mike was trying to get Ellie's phone. The phone was not in one of the security checks boxes, so he was worried to tell Ellie that her phone had been stolen or that it is in her bag and was lying. Ellie on the other side she found out that her phone was in her pocket and was so scared to tell Mike that she had made him go back to the security check and miss out the fun when this whole time Ellie's phone was located in her pocket. "I got some bad news" said Ellie and Mike at the same time running to each other and explained what has happened to each other personally and privately away from the public scenes. Ellie was so disappointed that she give a little smooch in the lips and Mike was so unbelievable that Mike got kissed in the lips. They loved their adventures and kept on enjoying the fun in Disney.

The End
