

The power I didn't know I had

By Aadhya G.

Hey hi I'm Rachel . I have a big sister. Her name is Riley and she's always bossing me around. Today at school my friend Lily, found a new friend . But when I met her she looked weird . When I got home I sat to do my homework. I felt warm and I picked up my pencil and then the most unbelievable thing happened . It got on fire ! I looked at my hand for a minute or two but nothing happened . I tried as hard as I could to make another pencil to get on fire . Nothing , when I went to bed I thought about it . In the middle of the night something rushed in the bush. I looked outside and it was Lily's friend ! She told me to follow her . Her house was on the other side of the street . She took me to her attic and said that I was a fairy !!! She also said that I was picked to be the only new fairy !!! I am so excited . Yay ! Then she opened a portal . She said to go through . I didn't go through it. I said wait but what about my family . She said there will be another girl that is a clone of me, she said. I went through . Then I came to a sparkly land where people were on unicorns instead of horses ! I mean how cool is that ! And the plants and trees were cotton candy. It was a miracle !!! She took me to a room in the room .Where there was a desk , a beautiful bed , and a book shelf . It also had a dresser . Then I finally noticed my wings were red , orange , and yellow . I also saw my hair was red , it used to be blond though . I was really tired so I rested for a little bit . Then I woke up for class , after class I went to play for an hour or two . I went to class and they taught me how to turn a person into a frog . I liked it a lot . Now I have learned a lot from magic. I like sharing my story with other people . And if you believe you might get chosen . 

The end
