## Chapter 1: The Monarch

Once a little girl wanted a caterpillar but her mom and dad said “It is too much work.” But Lilly (the little girl) was so determined she asked her mom to go to the zoo. Her mom said yes. So, they went to the zoo and when they got to the caterpillar exhibit Lilly sprung into action. She went to the cage and grabbed a monarch caterpillar as fast as she could and went to her mom. Lilly asked, “Can I go to the pet store?” Her mom said yes. So she went to the pet store, and she came back with a glass cage with her caterpillar in it. Her mom said, “I’m going to check with your dad.” Lilly’s mom went into Lilly’s room and told Lilly “You can keep the caterpillar but when it becomes a butterfly set in the wild.” “Ok Mom,” said Lilly.

## Chapter 2: The Cocoon

Lilly saw her caterpillar was tired, so she gave her more leaves, but she went away but at that very moment she started to make a cocoon. Lilly was so sad she waited ten days and on the eleventh day she saw a butterfly that was the caterpillar she had! Lilly knew she would not be happy, so she set her in the wild.

The End!
