

# Mystery in Mistirios

Once upon a time there was a town far away and the town was named Mistirios. In Mistirios there's a girl named Luna, she and her five friends Mia, Sophi, Emy, Luci, and Cristal were the most popular girls at school, but Luna is the most popular girl at school. Every boy at school adores Luna and her friends. But some kids are jealous, one example is Melly, the biggest bully in school. Melly always wants to hurt the kids at their school. On Thursday, May the 2 it was Luna's birthday and when she was in school a terrible accident happened, she'd been shot in the hand! Luna went to the hospital immediately, and was unconscious before she reached the hospital. Luna's friends had to find who shot Luna to save her. (Because in Mistirios when a person gets hurt, whoever hurt her can heal her. I know it's weird.)

The five friends split up to find clues. Mia checked the spot where Luna had been shot to try to find some evidence, and found a paper that said "I shot Luna finally I did it" Mia recognized that handwriting but did not want to be wrong. Sophi checked the classroom they were supposed to go to and saw a few girls that could be it. First on her list was Melly, so she asked Melly to write "Hello". Emy, Luci, and Cristal were walking through the school together. When the five friends found each other Mia and Sophi said together "We know who it is, it's Melly!" Then they said "Her handwriting is the same as this note!" Then the five friends went and confronted Melly, and the bully had no way out of it. 1 hour later they were in the hospital with Melly and Luna. (To basically revive Luna they needed to do an enchantment) They did the enchantment and Luna woke up, then they lived happily ever after.

*The End*
