## Part 1

By Noelle M.

## CHAPTER 1: HOW IT STARTED

My name is Emily Adams, and this is my story. It started a couple of years ago when I got hurt. I snapped my leg and I fell on my head. When I got healed the doctors put some serum in my head. But ever sense then all the people I've ever loved now hate me. Or died it has been 527 days sense everyone left me. My whole family, friends, mentors, classmates, everyone.

I miss my  
home but it's a warzone, when I got hurt

my doctor gave me some type of medicine which made people hate me or act in a rude manner towards me. I never knew this until it got bad. I never caught the person of did this. Who would want to hurt me? I am 17 and I do this on my own. I am so close I just need to know who the doctor was that preformed my surgery.

## CHAPTER 2: WHO IS IT?

My dad would never want to hurt me, who would? Is it one of my dad's old co-workers, but who would want to hurt me? Someone who obviously hated my dad. I started to remember when I was younger my dad took me with him to his job my dad told me to go to his office, I heard him yelling at someone and then I heard a lady crying. When we left I saw my dad's assistant leave she had a box full of stuff, she was on the phone with

someone it and she said, “ I’m going to get him back if it is the last thing I do.”

What is her name? Mrs. Mc... I forgot her name but every time I was at my dad’s office, she was so nice.

## CHAPTER 3: REMEMBERING

Her name is Mrs. Mcnail I remember. I am surprised I normally don't remember anything before my injury. I understand where she is coming from but why hurt me. These side effects they are unreal.

What did she do to me? I don't know much about chemistry, but I think that she gave me some oxygen mix with sodium and neon. Which from what I remember is bad, I look for a cure day and night. Maybe I can get to Mrs.

McNail, to her soft spot. If I can figure out where she lives, I remember seeing her at my prom last year. I think she was seeing if her experiment was working.

## CHAPTER 4: SNEAKY

I found out where she lives, 27 State Drive. I see green stuff over the place. What is going on here? I see her and her family they are fine everyone else are like zombies. I go down to her Laboratory.

I almost got caught she has so many guards, why? The guards leave finally, but somehow, they didn't notice me I mean I was right there. Anyway, I got a couple minutes to myself, I found her computer. What's the password? Oh, I know I going to get him. Yes, it worked...Know to files... ha I found it. Oxygen, Sodium, and Neon. I was right. I her footsteps it's her.
