## Eggs and Pancakes and More Store

Bang! I woke up to Mom and Dad cooking. I went downstairs, but it was just Mom's music. "Mom, why did you put on music soooo early in the morning?" I asked. "Because I CAN!" mom replied.

I started making pancakes and eggs. I ate, watched TV, and did not do my chores. I did not feel like taking out the trash yet. I went back to sleep.

I woke up and realized that I had more money (\$20.70). I guess Mom gave it to me.

After taking the trash out as I should have done earlier, I wanted to make a shop. I got my money and went off to find supplies.

First, I got cardboard from a convenient cardboard store. After that, I had to think what I was going to sell. Food! I would sell food that I made.

I had 101 cardboard pieces, 2 ovens, 3 cabinets, 7 food cans, and 3 menus. Then I saw my first customer.

"Hello! What can I get for you?" I asked.

"Can I have the...egg and pancakes," he replied.

"That's coming right up!" I said. In a flash, I gave him the eggs and pancakes. "That was super quick," he said. He took a bit. "This is the best pancake and eggs in my life!" I was surprised when he said that. "That will be \$7.99," I said. I had enough money now for tables, chairs, and umbrellas.

Then a family came to the shop. They said, "Can we have some pancakes and eggs with syrup. And, from the baby's meal we would like a little mac, please." I made it in one minute, then I gave the food to them. "Have a good day!" I said.

It was getting late, so I cleaned everything, put all of it in my room, and went to bed.
