

## Grace and the Spelling Bee

By: Olivia C.

This is a story about 12 year old Grace who more than anything wants to win her school spelling bee, but she is not the best speller in the school. She has an older sister, Sophie who has previously won the spelling bee in her high school.

Grace asked Sophie to teach her all of the words on the list that she couldn't spell. Sophie helped Grace and she was spelling the words that she didn't know left and right!

When the day of the spelling bee arrived, Grace was part of the final three contestants. The person spelling before her got eliminated. Grace felt so proud of herself for making it that far. When it was over, she spelled two additional words correctly before her opponent finally made a mistake.

Grace's family was so proud of her, especially Sophie! Grace earned a big golden trophy and it had her name on a golden plate. She also received a blue ribbon, awarding her first place, she was so excited!
