

Hanna W.

3-10-16

Hello, my name is Ella Berry. I am king and queen Berry's daughter, they rule over a town called Willow Hill. I also have a twin brother, Edward and a sister named Louise. I am saying this because you need some kind of knowledge about me before I tell you about this tragic day. But anyway Edward and I usually play with each other because Louise is a stubborn, mean, and, a rude person. My mother can't stand dogs, but she let me get one for my birthday his name is grump (not a great name but he is a great dog). Oh I almost forgot! My parents got these two cats that they love so much, because they have had them before Louise was born. Their names are Luna and carrot. Well, I guess I should tell you about the most horrible day in my life

"Ella wake right now! Or you want get your strawberry muffin!" I heard from down stairs. "alright I will be down in a minute!" I then got out of bed and went down stairs to eat breakfast. "Are you ever going to stop being a brat!" Louise yelled at Edward. Edward then answered with "WHY DON'T YOU STOP BEING A BRAT TOO!" As soon as Edward screamed out our father walked in the room and stared at them two, and the did not say a word. "You two need to stop this right now and get along" My father calmly said. He then walked up stairs to his office. Just to let you know Edward and Louise have hated each other since Edward was born., but they have to get along sometimes.

After breakfast I went outside to play with grump. "Louise want to play with me and grump outside!" I yelled to Louise from the back yard to her bedroom window. "yeah, I will be down in a minute or two but can't play for long because I am going to my friend Sophia's house!" she yelled back at me. So I continued to rough house with grump until I heard the back door open. "ELLA, COME IN RIGHT NOW HURRY! HURRY!" It was Louise screaming at the top of her lungs. I then grabbed grump collar and ran inside with him. As I am taking deep breaths from running my mother is hurrying and grabbing pictures, food, and special belongings. "what's going on?" I asked. Edward came over to me and said "there are strange beings that are flying around in the sky that is what mother heard on the radio. Also father is going to the town square to help the people who live there. Now quick go grab your stuff from your room you that you want." I was thinking in everything that I've just been told to me, so it took me a minute to go upstairs and grab my stuff. But I finally went up stairs and got my things like a blanket, cloths, dog food for grump, and paper with a pencil. I rushed to the basement/shelter to see my family terrified in a tiny room with blankets around them. Before I could shut the door of the shelter my mother yelled "ELLA grab the cats they are upstairs!" (of course always with the cats!) I ran up the stairs to the kitchen grabbed some cat treats and hurried up to the third floor. "come here Luna, come here Carrot!" I quickly chanted out. I looked in my room and there they were on my bed scared. I picked them up fast but as I did the house was hit by something huge. I fell down and hugged the cats tightly but all of a sudden I blacked out I didn't remember anything else from that night. bjt my mother told me what had happened from when I was "out".

The house shook like a dog after a bath. The noises from flying machines got louder and louder. My mother worried that I would not be see again, but she was to scared to go outside of the shelter. She also worried about my father.

A little over a week past. When my mother and everybody came out of the shelter. They were tired and we're blinded by the strong light of the sun, they searched everywhere around the house all they could find were two cats covered with dust digging for something in the front yard. The two cats were Luna and carrot. (what a surprise) A lot of the house crumbled into the front yard. Edward picked up pieces of wood and bricks and looked for me. So did Louise and mother. After a long day of searching

Edward screamed "I found Ella she is right here under this piece of wood !" they all hurried over and grabbed me and pulled me up .I was not waking up but I was still breathing . "Oh Ella it is all my fault ." A tear dripped down her face and landed right on my forehead .

They took me to the hospital that evening . The doctor said I was not going to wake up for a couple of weeks , but my mother asked how much it was and she did not like it . It was \$2,000 my mother was indeed rich but all the money was underneath the crumbled house . "I can not afford that!" mother yelled at the doctor but she knew she had to pay it .so she went to the other town next to us and asked to borrow \$1,000 . They agreed but mother has to pay them back (even though they are the most richest town in the country . Mother had enough money for Medicine and pills but she didn't know if I would wake up . Louise and Edward put up wanted posters looking for my father, king Berry . know one knew where he was which made us think that he was , dead . After weeks of me recovering I finally woke up and everybody was joyfully and so extremely happy . "why am I in the hospital ?" I said when I had awoken . "we will tell you later , alright darling ." my mother whispered to me . I just calmly said hi and hello to Louise and Edward , I could see them both tearing up with happiness . I was also happy .

It took me a while to understand what happened but I didn't care because I was with my family . Except for my father he was found in a field three miles away from town , people in the town square all think he magically got there because of the flying beings . But know one knows it also took along time but our house got rebuilt . I still had a family, dog, cats ,and a home and that's all that matters to me .
