

## The midnight ring

Greyson k

As I softly went to sleep, I heard a soft jingle, jingle. Then as I suddenly looked out the window but it was gone, then I softly went back to sleep. Until I hear it again jingle, jingle It was coming from the basement. Then when I ran down to the basement, there was nothing there except for a collar with bells around it and it had a name on it that spelled Rudolph but Just drop it back into the box where it came from and go back to sleep but for the last time, I heard that annoying jingle for the last time so I hop out of my bed but realise that the sound was coming from the roof. My dad says never go to the roof it's a scary place, but I just walk up straight to the roof. But when I get up there, I see the great mighty Santa Claus! But instead I just go back to sleep, but at Christmas morning I see loads of presents and secretly under my breath I say thanks Santa Claus. THE END
