

## CREEP SKULL

"Hi, my name is Mia. I'm at the park with my two best friends. Alex and Tamara say hi!" Who knew those were the last words I was going to say. Suddenly, we heard rustling in the trees. We assumed it was nothing.

When it was time to go home, Alex found a shortcut through the woods. I didn't know that was the shortcut to my DOOM. We heard footsteps. We were scared, so we hid behind a rock. We saw a suspicious looking man in a hoodie. When I took a picture, there was nothing in the photo. I was confused.

We followed him into a creepy looking shed. There was a lot of sharp tools in there. When he took off his hoodie and mask, we saw a skull face. We all screamed. The skull face heard us and found us behind his shelf.

He said, "Look at these children, POKING AROUND IN MY STUFF!" He looked at me and said "you, YOU ARE GETTING A PUNISHMENT!!" Alex held me down. I asked, "Alex, what are you doing?" She smiled an evil smile and held me down even tighter. The skull face got a needle and thread. He sewed my lips together. It felt like tiny knives stabbing my lips. Tamara watched in terror. She was super scared. She ran away, leaving me behind.

He also cut off my legs so I couldn't walk. I was stuck there for five years. I almost died. The police found them, and arrested both of them. Before Alex went into the police cruiser, she took off her mask. She was also a skull face. She was a skull face all along.

I was taken to the hospital. I got two replacement legs. Unfortunately, they couldn't do anything about my lips. Be careful when you choose your friends or you end up like me....
