

Five Nights at Freddy's the story
By
Sebastian

One time I worked at Five Nights at Freddy's but I heard a weird noise. Then I checked the cameras and one animatronic was missing. So, I waited until 6 AM but it was only 3 a.m. so there were 3 more hours until the shift ended. I checked the cameras one more time but one was out of their place. So, I shut the doors then I waited. The power was off then and Freddy was outside the door. I got scared but the manager came and turned on the power. I will never go to Five Nights at Freddy's ever again.
