

## Lucky Lottery

By: Mackenzie K.

One day I was running, and I hit my head hard and fell to the ground. The next day I heard on the radio that I had won the lottery. I ran down to the station to collect my winnings. I gave some money to my family, gave some to the shelters, and bought my grandparents a new house. I then decided to spend the rest on my dream. I yelled to my family, "Were Going to Disney World." My brother was so excited, my mom was stunned and my dad was shocked. Everyone was jumping up and down shouting, "Disney, Disney, Disney!" We took a first class flight and arrived at the Magic Kingdom. It was everything I imagined. We went on all the rides. We saw all the characters and even stayed in the princess castle. On the last day, we decide to ride the teacups. As we were ridding the teacups I notice that they were spinning kind of fast and the spinning seemed to get faster and faster. They were spinning out of control. I closed my eyes and when I opened them, I was laying on the ground right in the same spot where I had hit my head. Oh No it was all a dream! Maybe one day I will make to the Happiest Place on Earth.
