

Tanya M

Liana Chrysalis and the two Musketeering Girls

Chapter 1-Liana lived inside a forest where there was a bunch of danger. Liana was a gorgeous girl and always played outside in the meadows when she was at rest. What she didn't know was that there was an evil woman that had the power of jealousy. One day, Liana was playing in the meadows while her mom was making scrambled eggs with baloney. Once Liana had finished playing in the meadows she checked the mailbox. Liana had found a musketeering sheet of paper. She gave the paper to her mom and her mom signed her up. Liana had put the sheet of paper in the mailbox but when she turned around she thought she had seen something else. She saw something reflect from the sun to her eyes. She had found a mirror.

Chapter 2- To her it looked like it was magical but it looked all old and raggedy. Once Liana had gotten back home she cleaned it. She had turned around to look at the window to check if there was anything else that might be magical. What she was next was a black and purple weird thing. She went running outside but she didn't have time. She had to go to sleep...

THE NEXT DAY. Liana woke up excited the next morning because of musketeering. Liana had went through the easy path. While she was riding her horse she met 2 new friends. They were a cat and a raccoon. When she got to musketeering classes she had to change clothes. She had met another 2

friends their names were Melody and Alexa. But then the mean evil power of jealousy women arrived. She tried to defeat Liana for the mirror. But then Liana and all her 4 friends...

Chapter 3-The cat, Raccoon, Melody and Alexa were defeating her with a magical beauty blast of music that is called "Believe". But not just did they defeat her like that but with their musketeering skills. Then after practice was over, Liana went riding back home. She decided to adopt the raccoon and cat. She named the raccoon Ginger because its fur color is ginger mixed with caramel. Liana had next named the cat Tickle Whiskers because her whiskers tickle. Liana begged and begged her mom if she could keep them. Her mom then suggested yes. Then after all of that Liana's life got better each day!
