At that second what I saw it was a total nightmare. What? how did this happen? The magic counsel sent 2,500 magic scouts to war to kill Zeref and Natsu no luck. How is there only 200 scouts that came back then I turned toward captain Erwin and then there was a lady talking to him "saying where is my son luke"? Erwin said "sorry mam, he is dead he was a good scout but he is gone". The lady cried and cried. I ran home and opened the door. My mom said Eren where have you been I saw the scouts I answered 2,300 of them died at war I went and told my fake sister that my dad adopted mikasa one day I want to be a scout.
