

That Night
By Emily B.

It was a foggy night. I was lost in the woods. It was October 31st, Halloween, the most scary night of the year. My name is Emily. I went on a walk. Then I got lost in the woods. I was ok though. I had a flashlight.

I didn't know where I was going. I looked at my phone. It was 9:00 pm. I was so sleepy. I could barely keep my eyes open. I needed to find some place to sleep. Then all of a sudden there it was, this creepy old house. There was a sign that said "keep out" but I thought maybe someone lived there. I saw a mail box with mail in it so I figured someone had to live there. I knocked on the door once, then twice. Nobody was home. When I was about to give up and leave, the door opened. I went inside. The house looked very classy. I found an old man playing the piano. He said "who are you?" I told him "my name is Emily. I got lost in the woods and I am looking for some place to sleep." The old man said "you can sleep here. My butler will take you to your room". The butler came out and said "hello,, my name is Mr. Wick. Follow me and I will take you to your room...if you dare." I said "I didn't hear you Mr. Wick. What did you say?" Mr. Wick said "oh I was just talking to myself." I figured ok then and walked with him to my room. When we got to my room he said "I hope you have a good night" and he slammed the door very loud. I thought to myself, that guy is a little weird.

The room was in very dark colors. Everything was red, black, and gray. I walked over to the bed and climbed in. It was very hard but I was so tired I didn't care. I turned off the lights and shut my eyes and tried to go to sleep. Then I heard something so I turned the lights back on and I got up out of the bed to see what it was. Then all of a sudden all the lights went off. I got out my flashlight and looked around. The house was very dark. I heard another noise so I opened the door and as soon as I did my flash light went off. I walked into a small room and all of a sudden my flashlight came back on. I saw a man wearing a hockey mask and holding a chain saw. I screamed! He tried to cut off my head! I ran out of the room as fast as I could. I went into another room but it was dark. I was looking around and I saw something with red eyes staring back at me. I turned on my flashlight and couldn't believe what I saw! It was a family of vampires! They had pale skin and pointy teeth! I ran out of that room and into the living room. That old man I met when I first got here was there. He wasn't human either. He was a ghost! Then the butler came in. He wasn't human either. He was a werewolf! The old man said to me "come on out. It's dinner time". Then all these zombies came out. They were all my friends, Makenzie, Jonathan, Danton, CJ, and Jacob. They were all there and they were all zombies. They tried to eat me, so I tried to run away, but I tripped and fell. They started to eat me and I became one of the undead too. Then I woke up in the woods. It was all just a dream. I got up and started walking. I walked for a while when I noticed a house. I got closer and realized it was the house from my dream. It wasn't a dream after all. It was real and the house and the monsters were all there.
