

Dinosaur Land

By Travis C

Two kids that were named Max and Luke, they were stuck on a stranded island. Two more kids came, they were named Cade and Wes. Cade and Wes had sticks. They made us go on top of a volcano. Then they pushed us in, but we kept on falling past the lava. We landed in a pond. We saw dinosaurs like T-Rex, Megalodon, and Raptors and we saw a huge monkey. The huge monkey followed us so we explored some more. We got to see micropachycephalosaurous and apes. We found a temple with vines, we throw a rock. The vines were alive! So the huge monkey throw a huge rock, then we snuck past the vines. There were apes at the temple. We were starving so a girl ape made us lunch, and showed us the temple but Wes found a key. It fitted on that rod. So Mas put in in and turned the key. We didn't know what the rod was for but we sure did want to get back home. The thunder hit the rod so the lava pressure went up and up. So a lava geyser went up and blast a peace of land to Earth. So all the dinosaurs escaped so Max and Wes rode on the huge monkey to the Earth surface. So the huge monkey caught the dinosaurs with a net and picked up a rock, covered the piece of land and got home.
