

## My Six Flags Adventure

By Ashton S.

One day I was at Six Flags Over Texas about to ride the: Texas Skyscreamer. I was so nervous about riding it! Then all of the sudden I wasn't nervous anymore! I was very, very proud to ride the ride. When I got on it, I was so high in the air, I really wanted to get off, but I was brave and stayed on (not like I had a choice). When I got off I was kind of dizzy. After that I went to the snack bar to get a drink and snack. I then rode another ride. It's called: The Log Ride. It is fun and wet! I loved it so much! It had a bunch of drops and turns. I rode that ride so many times I don't even remember how many times I've rode it! It is very wet and very fast! You literally sit in a log while it is moving! Pretty cool, right!?! Almost every time we go to Six Flags Over Texas I want to ride those 2 rides because they are my all-time favorite rides! Next time my family goes to Six Flags I'm most likely to ride the Train.
