My Trip to SeaWorld

I went there for the first time and it was so cool. They have some shows with dolphins and other kinds of animals. We bought some food because we were hungry, and I bought some churros. I also bought some churros for my mom. In the backpack we had our swimsuits because there was a waterpark there too. We got wet and freshened up because it was so hot outside.

Later we went home to take a bath but then we went back to SeaWorld. This time we did not go back alone. We took my aunt Mariela, my uncle Eluterio and my cousins, Damian, Alan and Andy. When we got back to SeaWorld, I bought three more churros because I love them so much. I did share with my cousins. We got to see all the animals at SeaWorld, like the fish, whales and walruses. I really like the shows and rides. It was a great vacation.
