

Heather J.

Once upon a time there was a girl called Sarah and she was 8. She loved to dance but she broke her leg and before she broke her leg she won 2 gold metals and 3 silver metal. She was going to win her 3-gold metal before she broke her leg and when she went to the doctor he said that she had to rest for 5 months. She did that after the 3 months past she was so happy it almost over and 2 more months past when it was over she happy, but she had to learn all the stuff she knew already but it took her a year to do all that stuff. When she got it down she was dancing again so she said that I can do this, and her teacher said that you are going to perform next month so when it was the next month she was so scary for her. When she was done there was a gold metal that she won, and she said to herself that she will never stop dancing in her life.
